PROFILE

As a detail-oriented SQL Developer with over a year of experience, I specialize in database design and query optimization. I have strong proficiency in SQL, Excel, Python, and Power BI with a keen ability to clean and visualize data effectively. Passionate about uncovering meaningful insights, I strive to support data-driven decision-making and look forward to applying my analytical skills in a dynamic, data-focused role.

EXPERIENCE

SQL Developer • 07/2023 – 12/2024
RaiceTech Soft Pvt. Ltd. • Hyderabad, India.

- Designed and managed relational databases to ensure data integrity and accuracy.
- Developed complex SQL queries, stored procedures, triggers, views, and indexes using DML and DDL commands.
- Optimized SQL queries and enhanced procedures to retrieve and analyze large datasets more efficiently, resulting in improved performance and faster execution times.
- Formed T-SQL queries and procedures for creating dynamic DML scripts to modify a database objects.
- Created and set up an SSIS package for importing and exporting data across multiple sources.
- Encouraged good talks and teamwork with people at all levels of the business.

Skills

- **Database:** MySQL, Microsoft SQL Server, Oracle
- **SQL:** T-SQL, SQL query optimization
- **Tools and Technologies:** SSIS, Power BI, and MS Excel
- **Programming Language:** Python (Pandas, NumPy, Matplotlib)
- **Key Skills:** Database Design, Query Optimization, ETL Development, Data Analysis, Exploratory Analysis
- **Operating System:** Windows

CERTIFICATIONS

- Data Analytics Essential – By CISCO Network Academy
- Data Analyst – By 365 Data Science
- Python – By Udemy
- Power BI – By PwC Forage
- Intro to Data Science – By Commonwealth Bank Forage
